FINANCIAL AND CO MMERCIAL.

SATURDAY, March 31-6 P. M. The stock market has been unsettion, and rather weak, is is usually the case on the day following a holiday, and the efforts to force a decline in Erie were continued rith considerable effect. Michigan Southern was, however, well sustained, and this counteracted to a large stent the influence of Erie upon the general railway sit. The indications are that the upward movement as not yet culminated, and that the present decline will a succeeded by a quick reaction, to which the contion of monetary affairs and the receipts of the railays are highly favorable.

At the early session of the open hours Erie (sales 2.900)

As the early session of the open board Eric (sales 2,000 ares) sold at 77, Michigan Southern (sales 1,700) 83% a Cleveland and Pittaburg (sales 1,700) 78% a 78%, ox Island 113 a %, Northwestern 26%, preferred 64%, rt Wayne 92%, Rudson River 107%, Reading 100%, the first regular board the market was dull. Michi-Southern (sales 2,450) was firm at the closing price the half-past two board on Thursday. Reading was nigher, Atlantic Mail % Eric was 1% lower, Cleveland and Pitraburg %, Northwestern preferred %, Fortsyne %, Western Union Telegraph %. Government varities were firm. Coupon ave-twentier of the 1862 we were % higher. Ten-forties were unaftered ven-thirty notes were in demand, and the second rice advanced %.

acries advanced %.

At the one o'clock sessions Eric was pressed for sale, and declined to 15%. Strong efforts are being made to break the general market by depressing this one stock, and the leading "bear" is reported to be largely "short" of old Southern, which is supported with great firmness, to his great indignation. At the half-past two board the market was heavier. Eric closed 1% lower than at the Brist regular board, Reading 13%, Michigan Southern %. Northwestern preferred %; Western Union Telegraph %. Government accurities were steady at the morning quotations. Coupon sixes of 1881 were % higher.

At the half-part three open board there was no improvement in railway shares, and Eric (sales 1,900 shares) declined 34, closing at 74%. New York Central sold at

sullind 34, closing at 7434. New York Central sold at 14, Hudson river 10734, Reading (sales 800) 9934, Michia Southern (sales 500) 8334, Cleveland and Pittsburg des 2,600) 7734 a 34, Rock Island 11134, Northwestern preferred 53%, Fort Wayne 83%. Afterwards the market closed heavy, with especial weakness in Eric. At a quarter past five the latter was quoted at 74, New York Central 90%, Reading 98%, Cleveland and Pittsburg 76%, Rock Island 111 a M. Northwestern 25 % a M. preferred 52% a 53, Fort Wayne 88 a M. Michigan Southern was

The discount line is quiet and first class com-mercial paper passes freely at 6½ a 7 per cent, and the mext best grade at 8 a 9. At the West monotary affairs are reported dull. The Chicago Trioune of the 29th

Inst observes:—

The money market to-day was very quiet. The demand for accommodations at the various discount houses was comparatively light, but there is a strong disposition to contract rather than expand, and the market was generally close. The rate of discount at the hanks is steady at 10 per cent per annum; but second and third class paper is discounted on she street at 1 a 2 per cent a growth. There is very little Eastern exchange making at present, and the market is firm at par buying and 1-10 premutin selling. Round tots are selling among bankers at a prenium of 60c. a 10c. per thousand. Our leading bankers are still expressing currency to New York daity. The gold market is firm, and the price advanced from 127½ at the opening to 128½, but at the close it relapsed so 128 a ½. Coin for delivery continues in active borrowing demand, owing to the large "short" interest out-preeding, and loans were made at ½ a ½ per cent per

The Allegest Distillery Francis.

The case of the government against Simon Donau and others came up again for hearing before Commissioner Betts yesterday. The charge against Donau, it will be recollected, is that he brited E. H. Pyatt, an inspector of liquer in the employment of the United States, with a view to induce the laster to lend him his official brand, which, it was alleged, was put upon several barrels of whistey, and that by this act the revenue was defrauded to a considerable amount. Br. S. G. Courtney appeared as counsel for the government and Mesers. A Oakey Hall, Peltan and Judge Dittenhoeffer for the defondasi. It was expected that Commissioner Betts would pronounce his decision, on the motion made on a former day by defendant's counsel to dismiss the complaint, but some new points having in the interim been raised by counsel for the government, the Commissioner decided not to render any decision until counsel for defondant had an opportunity of discussing those points.

Mr. Hall, in breft terms, submitted his views, contending that, on the whole case, and according to his construction of the law, he had clearly shown the Court that the complaint should be dismissed.

Mr. S. G. Courtney replied, observing that the offence committed by the defendant was one that came within the purview of the statute.

The Commissioner adjourned the case till Tuesday.

THE HEALTH BOARD.

Complaints of the People—Seisure of Four Hundred Barrels of Diseased Herring—The Animal Kingdom of Breeklyn—Four Thousand Pigs, &c.

About sevetty-five complaints is the average daily receipts at the office of the Complaint Clerk, 301 Mott street, and a similar number are daily acted upon by the Sanitary police, under orders of the Board of Health.

Captain Lord's squad made a sudden raid on several fashing smacks which had been reported as having on board diseased horring, and the result was the capture of four hundred barrels of that commodity, much to the annoyance of the fish dealers. But, in a sanitary point of view, "all fish is fiesh," and must therefore succumb, as well as meat, when unconstitutional. The schooners

emplained of, situated in Nineteenth street, near avenu

states.—'I have seen an artificial made to represent tea by coloring bran with a mixture of copperns, or a mat-rial closely resembling it, and whiting." This he believes to be the mode of adulterating tea at that establishment. A lady complains that a lit. Holden, who occupies the lower part of the premises corner of Seventy-fifth street and First avenue, is a manufacturer of torpedoes, and that about ten o'clock each evening he prepares chemi-cials and tills the house with an odor almost suffocating, and that the children in the house are sick in conse-ruence.

among other interesting reports from Brooklyn inspectors, upon which action will no doubt be taken at the next meeting of the Board, is one from Inspector Allen on the subject of pigs and filthy piggories, which he has recently made a special object of inquiry. In Gowanus, he states, he found but few pigs, the favorite business in that locality being the swill milk trade. Here he also found a great quantity of very filthy poultry, besides a number of goats, which are generally confined to the residences of the poorer class of people. At Sandy Bank there are about one hundred shantles and about fifty pigs, the greater part of the space being covered with stagment water. In Van Brunt street and vicinity, also, a large number of swine are kept in sunkou lots, and that near the creek several dead hog, dogs and cats were visible on the flats. At the time of his yish it was low water, and the sun was shining on this pestilence with all the power, while the stench was eccessively assessing. To the best of his belief, between three and four thousand pigs, and nearly the same number of goats together with an unlimited number of goats and cats, are kept within the city limits. They write in the filtiest manner, the direction plant being draining of the section are kept within the city limits. They write in the filtiest manner, the direction limits of a lower of goats and cats with a unlimited number of goats and only the section perhaps, be rather are fully than a benefit to clear away the pigs, unless a most efficient method be established to remove swill that accomminate daily in every dwelling.

In relation to hone building factories the Sanitary Superintendent of that dig says that it requires but hitle capital for that business; the shandles being erected and the kettles artsnight they are fully prepared to report the response to east the removal as a resource of eastery. Of this class of public tensances are resourced the following: On Jackson awence, near the

ure of entery. Of this class of public nuisances are ted the following: On Jackson avenue, near the te, and two others on Webster avenue, Greenpoint; a which the hair curing establishment on Jackson avenue, from the telligate, Newtown, is described a terminate of the telligate, Newtown, is described a terminate of the telligate.

CHARGE OF FALSE PREFENCES.

Mesers. George C. M. Mumford and Daniel Connor, said to be shipping merchants, doing business at 146 Pearl street, were yesterday taken into custody by officer Chandler, of the Enest Market Police Court, on the complaint of Mr. Robert M. Mumford & Connor took a receipt for the goods, which receipt it is alleged the accused parties sold to the New York Warehouse and Security Company for \$1,250, and subsequently sold the wool to the complainant for \$1,250. Several weeks subsequently the Warehouse Company appeared and claimed the goods from Messur. Tellkamp? A Kitching.
